

2026 Combined Pain Care Skills & Substance Use Disorder Training Agenda

Neuropathic Pain – More Specific Breakdown

Presented by: Dr. James Romano
Offered: 12 August 2026; 0830-1030 AM EST
Location: ZoomGov

Description: This workshop will define neuropathic pain and review core concepts including anatomy, pathophysiology and workup for patients presenting with neuropathic pain conditions. We will review common neuropathic pain conditions as well as their current evidence-based treatments. We will conclude our workshop with interactive case presentations and an avenue for questions.

Learning Objectives: Upon completion of this workshop, participants will be able to:

1. Defining neuropathic pain and overview of neuroanatomy
2. Understand the categories of neuropathic pain and respective pathophysiology
3. Discuss workup for patients presenting with a neuropathic condition
4. Review common neuropathic conditions and current recommended treatment
5. Interactive case-based overview putting it all together

12 August 2026;0830-1030 AM ET

0830-0845 Defining neuropathic pain and overview of neuroanatomy

0845-0900 Categories of neuropathic pain and pathophysiology

0900-0915 Workup for patients presenting with neuropathic conditions

0915-0930 Break

0930-1000 Review common neuropathic conditions and current recommended treatment

1000-1015 Interactive case presentations

1015-1030 Questions
