

2026 Combined Pain Care Skills & Substance Use Disorder Training Agenda

Orofacial Pain Evaluation, Diagnosis, and Management

Presented by: CDR James Hawkins, DC, USN

Offered: 12 August 2026; 1300-1600 PM ET

Location: ZoomGov

Description: This workshop will identify the potential risk factors and causes of orofacial pain, as well as provide the basis for understanding how to diagnose and manage orofacial pain conditions.

Learning Objectives: Upon completion of this workshop, participants will be able to:

1. Understand trigeminal anatomy, physiology, and pathophysiology
2. Recognize how to screen patients for various orofacial pain complaints
3. Identify common orofacial pain diagnoses
4. Describe common orofacial pain management strategies, with a focus on self-management skills and referrals
5. List resources for additional education
6. Discuss specific clinical patient cases to implement these recommendations into practice.

12 August 2026; 1300-1600 PM ET

1300-1320	Trigeminal Anatomy & Physiology
